

This week, this coming week is going to be an explosive one so to speak. All kinds of secrets will be revealed to the public creating more confusion than already exists. There will be violence. Also lives will be lost in many places of the world. There will be so much confusion that it will be hard to tell who are the "bad guys" and who are the "good guys". In reality when you look at the world population the so-called "good guys" are relatively a very small amount of people. We are living in a

world where our so-called leaders are trying to twist our minds into believing that good is bad and bad is good. They have been quite successful in their efforts promising people that they could allow there Yetzer Hora to take them to the limit of Aveiros not only without punishment but with a pat on the back for their great accomplishments.

This is Sedom and Ammorah, this is ancient Mitzrayim coming back to life again in our generation. The problem is that Am Yisroel, Hashem's chosen people, have adopted many of the evil ones' twisted views of right and wrong. The open society that applauds all people that go along with their twisted ideas have made very deep inroads into the Frum community. They have done this in many ways. First the Reshoim try to make the Frum feel that Yiddishkeit is choking, Chas Vesholom, their freedom of expression. That it is preventing them from being able to enjoy all the so-called forbidden feelings and desires that man was born with. They tried to make them feel that Judaism and the laws of the Torah are primitive, Chas Vesholom, and are old fashioned, Chas Vesholom, and certainly not the way of our kind Creator. For the Jews that don't swallow this approach they use another approach. They send people into the community that buy them with money. They provide them with entertainments that have a Hechsher but that are really Treif. They send into the community smooth talkers with beards and black Yarmulkas to give Shiurim that Mamash twist the truth of the Torah for uneducated people to hear and believe that many of our Rabbonim are old fashioned, Chas Vesholom, and not with the times. Many of our formerly Frum, Tzniusdik, Aidel mothers and daughters have fallen into this trap. Many of them have been sent to courses that supposedly Frum people have been teaching about married life, raising children and they emphasize that the woman is a human being also and that she is being pushed down by a male society and basically being put into iron chains that tie her to her home and to her large family. They tell them things like you too could be what you've always dreamed of with examples of a certain woman not living in Israel that reached her dream even though she is Frum from a very Choshuva, honorable family and even though she is very Frum has achieved her dream of being a lawyer and a judge!

We lost our understanding of what in truth we are here to do in this world and therefore we yearn like Adam and Chava yearned to have the ability to do what Hashem does. Meaning whatever we feel is right and refraining from what we feel is wrong. However,

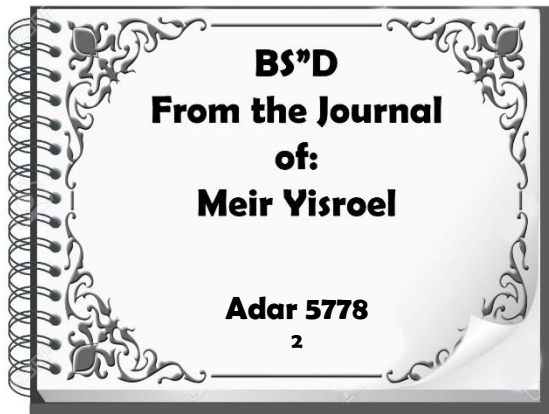

Hashem created us for a purpose. That purpose is to live a life of Kedusha according to Hashem's Torah. It's not easy but it brings the greatest reward imaginable.

You think the world was created as a democracy, it wasn't. Hashem created our bodies to go according to the teachings of the Heilige Torah. We were created physically spiritually and emotionally in every way to be able to fulfil His plan. The World was created for this. The animals were created for this, the vegetation was created for this. Everything in existence was created for this. When we go against our promise at Har Sinai when we said Na'aseh Venishma we are destroying ourselves, Chas Vesholom. You cannot go against Hashem's will ever and expect to survive. Again, I bring the example of Mitzrayim where eighty percent of the Jews had adopted the ways of the Mitzriyim and were so deeply involved in the Avodah Zora of the Mitzriyim that they had no real desire to leave Mitzrayim. They had gone over the barrier and ceased to be worthy of redemption, not even capable of doing Teshuva, so they died in Mitzrayim and only twenty percent left.

I keep telling you Am Yisroel this is going to be the situation now. Hashem promised Avrohom at the Akaida that his descendants would be as many as the sand on the seaside. Take this seriously because it is serious. Once the wars are over and the star has done the damage that it was sent to do, when the time will come that Am Yisroel has become truly Ovdai Hashem and Avdai Hashem then we will be as numerous as the sand on the seaside and we will be blessed for our loyalty, for our trust in Hakadosh Boruch Hu, with eternal life. Eternal life which will bring us to the highest point possible of spiritual pleasure which will be the only true pleasure in existence.

Am Yisroel leave your Egel Hazahav now. There will be a giant war. It is brought down in many sources. This star, this mini solar system, that is coming towards us is already affecting our earth in a very frightening way. It is coming fast and will destroy much of the world. Get yourselves together. Start going back to what you should have been. Go back totally to doing Hashem's will. Get rid of all your Goyisha ways your kosher pizza shops, your Treif I- phones your stupid entertainments, your total lack of Tznius, men and women. Your love of money, believing that you are in control of your life. You are not! The Eibeshter is! I am warning you again and again. Listen to what I am saying. Every day we see the world becoming more and more confusing, more and more scary. Make it easy on yourselves and if you can leave Chutz Laaretz come to Eretz Yisroel. The time has come. If you can't leave because you have no where to go and no money or if a person is sick and can't get medical care or just plain too sick to travel, you will also be saved if in your hearts and souls you come back to Hashem.

Right now, I am speaking to the so called Frum who for the most part have left their true direction. The time is now. Stop looking for Heterim so that you can continue your Aveiros! Moshiach is here! Hashem hasn't revealed him yet to us. Don't miss the boat so-to-speak, because if you do, Chas Vesholom, it will be forever!!!...

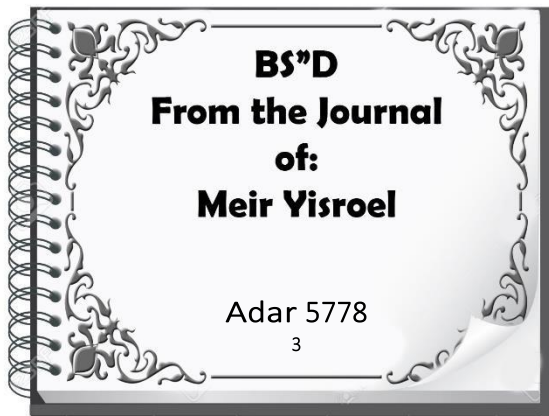

Well Mommy. We had an eventful week last week. Whoever doesn't follow the news or is unaware in anyway of what is happening in Eretz Yisroel and in Chutz Laaretz will probably give me a stupid reaction of "but nothing is happening"! I am not going to give a rundown of all the things happening in our world and in Eretz Yisroel but an informed person will know that without a doubt that this world, as we know it, is coming to an end! I don't know any more what else I am going to tell you Am Yisroel, in order to bring you

to the Truth and to put the fear of Hashem in you, to connect you to the love of Hashem, to make you realize that this is a life and death situation.

The world as we know it is in tremendous danger. This is not a Star Wars exaggeration. This is the real thing! The earth itself and all its inhabitants are in the greatest danger. If you want to laugh it off or make a joke about it or be angry because I am frightening everybody then I pity you. I repeat all Yiddishe Neshomas that were at Har Sinai and said Na'aseh Venishma will be saved even if they don't understand what Truth is and still are affected very much by the Sheker. Even so Hashem will open their eyes and force them to see and accept the Truth. I repeat, the Erev Rav are more numerous now than the true Jews and they are very dangerous because they seem to be Jews. However Hashem will separate the Erev Rav from the true Jewish Neshomas by force and will release us, the true Jews, from the dictatorship of the evil that has entered and seemingly has been allowed to control our world.

To survive we must cling to our Creator and His Torah completely. We must take out of our lives all of the Sheker, the lies of the non-Jewish world. These lies have entered our hearts but not our souls because the true Jewish soul itself can never be contaminated by the evil of the world. Therefore, even though the evil may have attacked our hearts and our bodies it has made no impact on our souls. Therefore, every Jew that truly wants to be one again with his Maker must begin to live a life according to Torah and Mitzvos which is the eternal connection our soul has with the Creator of Everything, the Hakol Yachol.

If we live according to our Torah then we will never have to fear. We will always be calm and unafraid not worrying about Parnassa or Chinuch for our children or anything. Worry will no longer be part of our lives. When we will fulfil totally everything written in the Torah then we will be without a care in the world and our only desire will be to serve our King, our Master, our Creator, our Everything. We will desire only to serve Him in the way He has laid out for us in His Holy Torah and all the commentaries to His Holy Torah by the greatest Tzaddikim. It is hard for me to explain this to Yidden that are so deeply immersed in the Sheker. The Sheker is pulling us down into the muck of the Gashmiusdik world but Hashem in His great love of us and kindness towards us is pulling us out of all this filth. All we have to do is put out our hands and cry to Hashem "Help me! Save me! I want to come home, back to You my Father, my Teacher, my King, my Everything"!

OK Mommy, this week I feel that there will be a giant explosion. I don't know if it is a physical explosion like a bomb or a spiritual explosion as in some kind of conflict or fight between people that want to hold onto the Truth against people that are bent on keeping a tight grip on the Sheker. There will be much confusion this week. Some people will say one thing while others will say something else completely. The so-called experts will have conflicting answers to

many questions. The world powers will be at each other's throats and we will take a giant step towards World War Three.

What else can I tell you? What else do you want to hear from me? I can only beg again and again, Am Yisroel give up your false gods, the Egel Hazahav that you worship so dearly. Even though you do Mitzvos and so on, the spirit of your life the way you conduct yourself has lost much of the Eidelkeit of a true Jewish Neshoma. For the most part people have become rougher even though they think they are going more towards the truth. It is all lies and they are moving away from their Yiddishkeit without even realizing it. The next generation who are children now have lost that Erlicha sensitive look in their faces that Frum children once had. How can they look like Temimusdik Erlicha children when they are growing up on Walt Disney garbage? How can they look at us with deep and penetrating eyes filled with spiritual achievement when achievement means only getting 100% on a test or being popular among their peers. If the world as we know it today doesn't end soon I am afraid that in one more generation there won't be a Yid left under the age of twenty that will be able to feel the presence of Hakadosh Boruch Hu or recognize His greatness in any way.

Therefore, the Geula has to be right now as soon as possible! So, I beg you Am Yisroel if you in anyway have any knowledge of the greatness of The Hakol Yachol start getting serious! Throw away your electronic toys that are killing your body and your soul. Stop trying to live a life of Goyisha entertainment packaged as if it were Kosher. Be Tzniusdik both men and women because the Goyisha idea of marriage and fulfillment is for a Yid an absolute Issur because it destroys a person's Kedusha. Hakadosh Boruch Hu hates the lack of Kedusha and every Yid be it man or woman must not go down to the lowest levels of the Goyisha world! The lack of Tznius, the lack of Kedusha is for Hakadosh Boruch Hu a terrible abomination that disturbs Him in the worst way. Therefore, Am Yisroel come back before your Aveiros will pull you down to the bottom of the pit where you will never be able to get out of, Chas Veshalom! It's coming!!! It is coming soon!!! Time is moving very fast and Hakadosh Boruch Hu is waiting for you to make the right decision.
