

We are quickly sliding into a very difficult time. I think everyone in the whole world, except of course the ones that don't want to know and ignore the facts, will agree that we are heading head first into World War Three, Hashem Yishmor. It is all very frightening and it doesn't seem that anyone can stop it. It is strange how the different countries have already begun choosing sides forming coalitions which are

aimed at military conflicts, obviously in the quite near future. This is no joke! We are definitely on the verge of a most terribly violent war that in a very short time after it starts will cause record breaking amounts of death and suffering, Hashem Yishmor.

I am not going to give you Mussar today. I don't have strength to go through again all the things that we have to do in order to do Teshuva. I will just reiterate that without total and complete Teshuva no Jew will be able to survive and greet Moshiach. The key to eternity is Teshuva, complete Teshuva. I will repeat that the war that is coming is not good against bad but it is evil against evil. It is a no-win war but it will eliminate at least some of the Reshoim. However, the mini solar system, Nibiru, Hashavit and the effect that it has on the earth and our solar system will make it clearer that Hashem is the only One that can destroy this world as we know it. This mini solar system will eliminate much of the world population and leave the ones that might still have a chance to greet Moshiach Tzidkainu.

I won't go into the details of Gog Umagog because I have spoken about it many times and I am sure many of you can learn it for yourselves, but I am warning all of you who are interested in this message that time is running out and you better change your ways fast. Take a tweezer, so-to-speak, and pluck out from every nook and cranny of your being all remnants of the Yetzer Hora and throw them away. Do Teshuva and Hashem will save you! This time there won't be any more Gilgulim to fix this or that. This time the survivors will be the ones that have been chosen to start a life which is more real and more truthful and eternal than anything they could dream of. I beg Am Yisroel make your choice and don't let the Egel Hazahav and the Yetzer Hora confuse you and send you into oblivion.
