

I can only tell you one thing. We are going into a deep tunnel which is going to seem never ending but in actual time it won't be all that long. Fear is going to grip the world and there will be violence from every direction. The mini solar system known as Nibiru - Hashavit will also appear and change the world physically. The globes and maps that put every country in its place in our minds and in our understanding, will all be changed. Where once there was dry land will be covered with deep water and the seabed will become land without water, but

Eretz Yisroel will stay the same and untouched by the violence around.

Am Yisroel please come back to Hashem. Leave your beautiful homes in the western world and come back to where you belong, in Eretz Yisroel where, may be, the life is a little bit difficult in Gashmius but you will be very rich in Ruchnius. If and when you decide to put your ego aside and accept totally, in the greatest humility, that Hakadosh Boruch Hu is the Hakol Yachol and say with all you heart "Ain Od Milvado".

This Rosh Hashanah will be a time officially and unofficially to realize what we are supposed to be. A time for choosing which side we want to be on, the side of evil or the side of good. Two thirds of the world will be destroyed. One third will be completely destroyed. One third will be very badly hurt and one third will be untouched for the most part. That will be the area where Eretz Yisroel is. In the future Eretz Yisroel won't have the frontiers that it has now. The borders will be like in the times of Shlomo Hamelech. I beg you Am Yisroel, time is running out and before you know it Gog Umagog will be upon us.
