

Good morning, I know I am very nervous lately. I really can't help it. The Matzav in the world is looking grimmer and grimmer by the day. Many things are happening, so many things being revealed, warning us, all of the inhabitants of the world, that everything that the human beings that inhabit the world take for granted are endangered in such a way that it puts all of life on earth into a big question mark of survival.

I won't go over all of the gruesome details of what and how nature is being affected in the worst way possible. I won't go into all of the facts again and again. There is a mini solar system moving dangerously close to the earth that could by its presence and its tremendous magnetic pull literally destroy the world as we know it. We have seen lately natural disasters that are happening all over the world. Strange and dangerous things are shaking the earth like hundreds of earthquakes, some even hitting the number eight on the Richter scale. Hundreds and thousands of dead fish washing up on the coastline all over the world without any clue what is making them die off. We know that the water is heating up in the oceans. Evidently this is caused by volcanoes on the seabed under the water that have been erupting in the past few years. And of course, we have all been witness to the facts on the news of many well-known volcanoes above ground that have lately been erupting at an alarming rate. However, these are not the only examples that put us into great alarm. There are many other dangerous things happening like the huge amount of sinkholes opening up around the world some tremendous in size and some relatively small in size. Some swallowing up cars and some swallowing up buildings.

What I have mentioned now are only a few of the strange happenings that we have been witnessing on earth. However, if we turn our vision to the skies we can see also drastic and fearful changes that should put us on red alert. The mini solar system known as Nibiru or in the Zohar, Hashavit has been spotted and photographed by many people and even though the deniers would have us believe that the vast majority of pictures are not true at all but for various reasons still there are enough photos that are undeniable that show that the heavens are shielding a very big danger to the earth itself. All of this is foretold in the Zohar, in Tehillim and in many other Sifrei Kodesh. We have witnessed also many times more asteroids and meteorites miraculously passing us by in the heavens, but there are those that have landed on earth and caused much damage. All of these happenings, which are not all of what is happening, should give us a clear picture and a very strong message that Hashem is giving to Am Yisroel. The deniers will claim that this is all nonsense but I think that most people that have any knowledge at all have come to the reality in their conscious mind or unconscious mind that we are being warned by the Creator Himself that the Yom Hagadol Vihanorah is imminent. It is a clear warning that only a Ness can save

us and those that ignore the warning, Jew and Gentile alike, will be in more trouble, in more danger than they could ever imagine.

But I am speaking to the Frum Yidden and begging again and again grind your Egel Hazahav into dust and throw the dust to the four winds. Come back to Hashem completely! Dig out of your hearts and souls all of the Aveiros that you have accumulated over the years. All of the forbidden toys and Gashmius that have hardened your hearts, all of the pleasures of the body that have poisoned your minds and your souls, get rid of them. Come back to the purity of our sacred Yiddishkeit, of our love and loyalty to our Father in Heaven, Hakadosh Boruch Hu, The Hakol Yachol. He is waiting for us and begging us to come back to Him. He loves His Am Yisroel, His chosen people and is waiting for His wayward sons and daughters to come back to Him completely.

I just want to emphasize again and again Teshuva, Teshuva, Teshuva, that is all that He wants. He wants His children back at home where they belong. He wants us to be His again totally! Most of us have strayed from the fold without even realizing it but He is holding out His right hand, so-to-speak, and is welcoming Am Yisroel back to true Yiddishkeit. He wants His sons and daughters to go higher and higher in their journey with Him through Creation attaining higher and higher spiritual goals which will bring each Yiddishe Neshoma to deeper and deeper ecstasy.

I can't describe in words what the future will hold for the survivors of the world as we know it but I do know that life in the future will be totally different physically. It will be more Ruchniusdik, more spiritual than physical. However now is the time to get to work. To get over the first and most difficult hurdle which is breaking our physical desires, our "emotional needs" and our infatuation with the Egel Hazahav and all the evil that it stands for.

I Bentch all Yidden that the light of the Chanukah Lecht lit by Jews still yearning to rebuild the Bais Hamikdosh and to come closer and closer to Emes will light the way for all of us to reunite with our Creator, Hashem.
