The Master Plan Is Taking Form

Mommy I think my last week's message covered things pretty well. As for this week, well, it will be an interesting week. There will definitely be things happening. Also if you don't understand the goals of the Reshoim, Yemach Shemam Vezichram, it will be very hard to understand what they are doing and why they are doing it. But for those who have been following the paths that the Reshoim have been taking and following the highways and byways that they have been building will realize that these evil ones are positive that they are actually very close to their evil goals. It is more and more evident that the master plan is taking form and a clear direction to the grand finale which they think will be the complete takeover of the world and the establishment of a one world order, a one world government, a one world army, a one world police, and a one world court of so-called justice. Before this can be attained completely we can see their horrific plan of a great world conflict, a war that will in the end make the world population much less and bring the rest of the inhabitation of the world to their knees and begging for their lives.

They feel very close to their goal and this is only the beginning of their goal. They want to make Medinas Yisroel their capital and they want to build on Har Habayis, Chas Vesholom, a Bais Tumah of Avodah Zorah which is their religion, the worship of the Satan. Therefore they are making Jerusalem the capital of their new religion and the one world order.

Their people have infiltrated the highest places in the Israeli government, the highest places in business in the state of Israel, and they control the Botai Mishpot (courts). They are in control of what is called the "supposed" security of the state of Israel, meaning the army, the police, and the secret services. It's not all the members of these organizations that are their lackeys but the elite in all of these groups have infiltrated the heart of the so-called Jewish state.

But Am Yisroel, don't be afraid. We have nothing to fear. Hashem is with us as long as we are with Him. He is with us! If, Chas Vesholom, we go to the other side then we are doomed. If we stay close to Hashem we will be saved IY"H!

So come let us open our Siddurim, open our Tehillims and come very close to the Creator of the World. Let Him know that we are and have always been His people. Gut Shabbos.
