

I am running out of things to say, not because there isn't what to say, not because the news for people that are interested in the news, points clearly to the fact that the Nevuas are coming true, the Nevuas about the end of time and all that is supposed to happen before the Geula Sheleimah. Everything is happening clearly without a doubt even to the names of the countries which are the main players in a world

war that will obviously erupt in the near future. I think that every intelligent or even not so intelligent Jew should realize, just from the facts presented to him and all the "technological toys" that we have today from radios to iPhone televisions etc. that bring us daily, even hourly the news of our area and the news of the world. For sure the evil ones, who also control most of the news medias, are hiding much of the news that is true. Still if a person wants to know he can know quite easily but most of us just don't want to know.

All I can say is if you really don't want to know I understand, it is a very difficult thing to face such a frightening truth which is that soon the whole world is going to be involved in a tremendous war that will affect every country on this planet. It won't be clear to anyone standing on the sidelines. Most of the population of the world won't know what the war is all about, what they will know is that every country including the State of Israel will make their population feel that it is their duty to fight and even die for their country's honor. Besides that, it is a fact that Nibiru the mini solar system that is heading towards earth evidently will soon pass earth causing tremendous damage and loss of life, Hashem Yishmor, to planet earth. After we come to our senses from both of these most difficult events there will still be Gog Umagog to deal with.

I don't feel there is a reason to go into more detail about future events however, I just want to stress that if you think even for one minute that this is all happening by chance you are either a fool or completely mentally retarded Chas Vesholom. If you want to tell me that this is not a divine act, that Nibiru does not exist and if it does it's not dangerous, then you have no idea what-so-ever of the great amount of damage that Nibiru is already causing to planet earth by its tremendous magnetic pull even though it is still quite a distance away. The world population has been suffering tremendously from major and deadly changes in weather patterns from many natural or unnatural happenings like millions of fish of all kinds being washed up dead on the shores all over the world, by a tremendous leap in the amount of earthquakes the earth is having, and fires that threaten large areas, and the fact that the earth itself has cooled off tremendously even though many countries are suffering from extreme drought and very high temperatures, sink

holes are opening up all over the world, giant ones that can swallow up whole buildings and small ones that can swallow up two or three cars. There are more reports than ever of large amounts of people and animals being hit by lightning and dogs and other animals, even pets, attacking people in the worst way. We also know that there are many illnesses that have taken the lives of millions of people and they can't seem to be controlled.

In short, we are in a mess and the only way out, my dear fellow Jews is to keep the Mitzvos of the Torah that was given at Har Sinai with all our hearts and souls. To raise our children the way Hashem has dictated to us and most of all to believe with all our hearts and souls that Hakadosh Boruch Hu is the Hakol Yachol. He created everything that exists and there is none other than Him, Ain Od Milvado. We have to look at ourselves as His complete servants. We must serve Him with a love of a child for His parents but that is not even enough we have to love Him because He is everything and He loves us as His children and that He and only He created us especially to be His children and we His people, His children must feel that great love that pulls every true Jewish Neshoma towards our Father our Creator.

A Jew is born with a desire which is part of his holy soul his Helige Neshoma to be close to our Creator and to serve Him and to love Him and to be loyal to Him forever. Only true Jews can feel this so intensely. The tumult in the world today, the confusion has taken the true Jewish Neshoma that exists here and made it very difficult for it to come to the full expression of love that is inborn in every Jew but now as the world becomes more confused and treacherous we will have to rely totally on Hakadosh Boruch Hu to save us because it will become very obvious that we can be saved only by an absolute miracle.

Again, I beg my Jewish brethren come close to Hashem now. Close yourselves off from the decadent world that exists today and find peace and happiness in your eternal connection with Truth. I know it is not easy and since we have been living in a world that lately seems like a mental institution filled with criminals who are trying to convince us that their criminal life is the way we are supposed to live, that that's what is good, Chas Vesholom.

I Bentch every true Jew that exists here on planet earth that we should all be Zoche to greet Moshiach Tzidkainu and that no matter how far away we seem from that goal I Bentch us all that we will achieve, in the end that total and complete subservience and loyalty to the One and Only Hakol Yachol Creator of Everything Hakadosh Boruch Hu.
