

I feel the war is very close. I think it is time that everyone makes a Cheshbon Hanefesh. Even though when I say the war is very close it doesn't mean it is going to be tomorrow or the next day. However for sure it has already started. It is definitely the countdown and everyone better utilize that time to do Teshuva.

I feel that this war will come one stage after another. Things will get more complex and

more frightening. Sometimes it will seem to be at a standstill, which because we are already in this process of going towards world war we may think if it stands still it is not going to happen but we have seen lately very clearly how it works, how it goes from stage to stage progressively becoming more and more threatening.

So, I am begging you take all the Simonim / warning signs seriously and know that this has all been foretold in the Nevuas. We are not at the beginning of this development. We are going rapidly towards all-out war, that with the so-called technological developments could take down huge cities and turn them into dust in minutes. It is not only the war that we have to fear it is the fact that most of the population of the world is living in absolute sin and the so-called "rulers of the world" are encouraging us to break off ties with our G-D and go in the ways of the Satan, Yemach Shemo Vezichro. This is a deadly situation! These rogues are especially targeting the Jewish people even though we are a very tiny spec on the map. Still through our Torah and our intimate connection with Hakadosh Boruch Hu we have the keys to all the secrets of life itself and therefore the evil ones want to particularly get rid of us all and especially stamp out, Chas Vesholom, the Jewish faith, the Jewish connection with The Hakol Yachol.

I beg my Jewish brethren discard your Gashmiusdik toys that can only bring you to destruction by bringing you down in your inborn ability to connect to the higher realms of Creation and reach the epitome of Devaikus with Hakadosh Boruch Hu.

I beg you use your intelligence, use your depth of understanding and love that Hashem gave you and live your lives according to Hashem's words. If you do, you will reap eternity, an eternity only of true good and true happiness. If you don't take advantage of what I have just written then your end will be extremely painful and with no way to repent and you will disappear from existence, Lo Oleinu. Choose, Am Yisroel, and do it quickly. Time is running out and when it runs out you will either live a most extraordinarily wonderful eternal life or you will disappear into non-existence. It is your choice!
