

I feel this week will start off dragging, generally speaking, but underneath the surface of all the activity that is buzzing around the world in all kinds of ways, I feel that very soon things will become very frightening. For a long time, brave scientists and other educated people have been warning about world war three being imminent and about the arrival very close to earth of Nibiru the miniature sun

surrounded by seven planets moving in orbit. They know and even risk their lives when revealing these facts to the world. However today many people have already been exposed to this information and even if they believe it somewhat they prefer to ignore it because it is too difficult for them to accept the most frightening possibility that the world as we know it is about to become a most dangerous place, to say the least, and that most of the population of the world will disappear.

However, I am only directing my little essay to my fellow Jewish brethren. I will scream at the top of my lungs come back to Hakadosh Boruch Hu, The Hakol Yachol. He is everything. There is nothing without Him. Save yourselves a lot of misery by rejecting the materialism, the superficiality of the world the infatuation with Goyisha life full of desires and low morals and come back to our sacred Torah trying with all our hearts and souls to fulfil all the Mitzvos and to run away from the negative transgressions like running away from a giant fire that is threatening our existence. The only way to get through the most frightening happenings of the near future will be to come back totally to our trust and belief in Hakadosh Boruch Hu and to exchange our lusts and desires and all the things that are against our Torah and yearn to be one with Hakadosh Boruch Hu. Obviously, the time for our final redemption from this miserably long Gallus is very close.

I Bentch all Am Yisroel that we will all get through this incredibly difficult time with our trust and belief that Hashem is Hakol Yachol and that Ain Od Milvado.
