

It's been a hard week for everybody not only for individuals which many have been suffering or leaving this world, Shelo Neda, but for the whole world it has been a hard week. Drastic and dangerous and fatal changes of the weather have taken thousands of lives all over the world. The list of this strange and dangerous weather that seems to change seasons from day to day bringing to

almost every corner of the earth doom and destruction and death in many cases from unusual weather patterns that have hit most of the world and which has not been known since the times of the flood of Noach and the destruction of Sedom and Amora or the Makkos of Mitzrayim.

Obviously, our planet earth which is not really ours but which has been loaned to us by the Creator of the World, is obviously degenerating for some unknown reason. Besides these latest weather connected happenings, we see clearly World War Three on the horizon. The reason for all-out war seems almost ridiculous and with no real base to such dangerous threats of war. It is obvious to any halfway intelligent human being that all of these wars that have been going on for the last at least ten years and have been perpetrated by the so-called elite in order to put the peoples of the world into total confusion and to kill off as many human beings as possible and while they are doing all of this to make as much money as possible. I won't go into more detail about our situation in this confused world that we are living in.

I will just say that it is obvious in every way that the end of this world as we know it is happening. How it will all end exactly I don't know. I only know one thing that Am Yisroel is still Hashem's favorite children and that will be true for all eternity. I know for sure that every true Jew will be saved. I know for sure that every true Jew that is saved will gain eternity. One more thing - it is possible to do Teshuva on every single Aviara in the Torah. Hashem is waiting for us His beloved people, Am Yisroel to beg Him to forgive them for all their Aveiros big and small and to allow them to be His true servants forever. This great act of true Teshuva will save every repentant Jewish soul no matter what his or her sins might be. However the Teshuva must be real and sincere.
