

The truth of the matter is I don't know what to say. The world is upside down and inside out. The Goyim which are seven billion in numbers in the world compared to Am Yisroel which is in the latest count, fourteen million who claim to be Jews. This shows us that we are not just a small group of people in comparison to the Goyim but we are a minute group of people. From the number of fourteen million I feel that

there are no more than maybe six million Jews that are real Jews and from that amount I really don't know how many could be Erev Rav or Amalaikim that never really truly accepted Yiddishkeit. I don't know the number that will survive and be able to greet Moshiach. However I do know that in comparison to the more or less seven billion Goyim that now live on earth the amount of true Yidden that will survive is very small.

If we look at the globe and we try to find Eretz Yisroel its more or less a spec on the map. However, that spec together with the Jewish Neshomas that stood at Har Sinai will be the survivors. There will be Goyim also that will survive but very few in comparison to the original numbers. It is amazing how the whole world and its population have periodically tried to snuff out the Jewish people and to take over Eretz Yisroel. What was so important about Eretz Yisroel that is only a small spec on the landscape of the world? Why have they always been trying to destroy us, Chas Vesholom? What kind of danger have we always been for them that they would attack us in such vicious ways trying very hard not only to rule us but to destroy us completely? The answer is that we are Am Hakodesh. We belong to Hakadosh Boruch Hu. We are part of Him. If we do Aveiros then often the Goyim are used to punish us. They know what and when we make Hashem unhappy, so-to-speak with us and they want with all their hearts to use that time when, we Am Yisroel are doing Aveiros to attack us because they know that Hashem is angry with us. They talk a lot about the holocaust. Unfortunately it is an eternal example of how Am Yisroel went astray in Europe after building the most holy Yeshivas and producing some of the greatest Talmidei Chachamim and Tzaddikim that ever lived. Even though the Yidden managed to do such lofty things all the connection with the Goyim brought them down to the point that eventually, most of the over six million Jews that lived in Europe just before World War II were Mechalelei Shabbos and that brought about the rise of the evil Nazi regime which was a tremendous Makka for European Jewry. This was all a Tikun for Am Yisroel in order that the sinful European Jews could reach eternity. Hashem punished us, the good with the not so good. However every Jew true which means the vast majority of Am Yisroel that were killed by the Nazis did complete Teshuva and that saved all the true Jews.

Today we are preparing ourselves hopefully for the Geula Sheleimah. Hashem is sending us messages in every way to help us realize that this is it. We are coming to the Geula Sheleimah but again we are in a situation where the Frum Jewish community seems to be on a higher level than before with hundreds and hundreds of Yeshivas, Chadorim etc. With more and more Jews becoming religious. However, the facts are showing us that only a few are holding onto their true Yiddishkeit! The Erev Rav have infiltrated our communities and they are working with the Goyim in Chutz Laaretz and with the Zionists in Eretz Yisroel. They are trying very hard to pull those Frum Yidden who are trying to educate their children in the way of Hashem away from our Father in Heaven by entering the schools with government supplied money and trying to change the education from within. This is a huge tragedy and is confusing many religious Jews.

Am Yisroel open your eyes and do not enter Machlokes. Machlokes is only a tool that the Reshoim have produced to separate us, Chas Vesholom, from Hakadosh Boruch Hu. I beg Am Yisroel, stop the Machlokes! Its the devil himself that is doing it by lies that make people feel that they are fighting for justice. Only one thing that Hakadosh Boruch Hu hates more than Zima, lack of Kedusha, is Machlokes between Jews. Am Yisroel what else can I tell you? Nothing really except to learn Torah, love your fellow Jew and try to help him as much as possible. Open your heart and your soul your mind and your energy in order to come closer and closer to The Hakol Yachol, to The Ain Od Milvado to Hashem because without Him you have no future. You have no past. You have nothing! A Gut Yom Tov to all the Yidden.
