

Oy, Oy, Oy. What is going to be with you, my fellow Jews in England? How are you going to survive the coming huge catastrophes that are going to almost destroy the whole world? Open your eyes and see the warnings Hashem is giving to you, very similar to the warnings the peoples of the world received before the Mabul! Look around you and realize that

the most terrible so-called natural disasters are happening daily all over the world. Whether it be horrendously cold snowy weather with drifts of snow over two meters, sometimes three meters high and the temperatures plunging way below zero Fahrenheit. All over the world there are downpours of rain that wash away the crops. There are massive die-offs of fish worldwide, hundreds and thousands of fish piling up miles long on beaches all over the world. There are massive attacks of lightening, that while lightening is dangerous it lately has been killing hundreds of people around the globe. Volcanoes have been exploding above the water and under the ocean, especially the Pacific Ocean, causing islands to form from the lava that has cooled off and accumulated. Meteorites of all sizes have miraculously blown up entering the earth's atmosphere without harming anyone. According to all scientists the north pole and the south pole are moving and north is no longer north as it once was and south isn't south as it once was, causing total confusion in the seasons! Some countries are suffering more and some countries are suffering less. However, these changes have caused huge crop failures all over the world and has also caused many animals that people depend on for food, to die.

Don't forget, my English Jewish brethren, that England is only a little island in a vast ocean. You are very close to the north pole and the north pole is melting at a rapid pace. What I am telling you is not new. Scientists have lately been talking about how dangerous it is that the north pole is melting at such a fast rate causing the oceans to rise and probably eventually causing the American cost line to be very much under water. For sure England will be suffering very much because you are only tiny in comparison to places like the United States and Canada and you might find yourself surrounded by water without a place to go. If you don't believe me you can check it out. What I am telling you is only a small part of the warnings that Hakadosh Boruch Hu is showing us.

Clearly there is one other huge threat at this moment and that is war! The Third World War is about to begin. It shouldn't last very long but will wreak huge destruction all over the world. Interestingly enough so many countries are threatening each other with the most powerful weapons of destruction and yet in our world most people ignore it as if life was moving on as usual with no fears and no problems.

Wake up, my fellow English Jews! You are living in an imaginary world. Hashem is warning us very clearly. It is time to pack up and leave that infamous island once called Great Britain. You may have had up until now an easy life there but the Goyim have already started to turn against you with the infamous hatred that they have in their hearts for Yidden and their Yiddishkeit.

England, by a huge miracle, once ruled the world and that alone was an unbelievable Ness. A small island with comparatively small population actually ruled the world. However, England is finished! It will probably sink into the water and disappear. We are looking at an ominous future altogether in the world. Very soon there will be drastic financial difficulties. Everywhere there will be shortages of food because of the strange destructive weather. Money will be scarce and the demands of the Jewish community to abandon their tradition will be overwhelming in all countries of the world including Britain. The Jews of France have gotten the message. There has been a big Aliya from France. They understood when violence against their Yiddishkeit began knocking at their door so-to-speak, after a few Korbonos in the Jewish community, many realized that it is time to leave. Almost all came to Israel.

All of this is written in the Nevuas. It is nothing new. I suggest that before it happens, you take your families and relocate to Eretz Yisroel, not Medinas Yisroel - Eretz Yisroel and know that while Eretz Yisroel is now being occupied by a place called Medinas Yisroel it will be the safest place on earth to be in the very near future.

All of the countries of the world are getting ready for war with the most horrendous weapons ever produced. We know from the Nevuas that two thirds of the world will be destroyed but not Eretz Yisroel. The government in Medinas Yisroel are Reshoim! They are not in any way trying to save Yiddishkeit, the Jewish religion, and the Mesorah. They are trying to do the opposite which is to destroy Judaism altogether. Still, the safest place will

be Eretz Yisroel. I have only told you a small part of the dangerous happenings in the world. If you don't believe me, look it up in the Seforim and look up what actually is going on in the world, and you will see for yourselves the truth of what I have told you.

Come now while you can put the money together and remind yourself that you are not coming to Medinas Yisroel you're coming to Eretz Yisroel. Don't worry, we have a promise from Hashem that the land of Israel will be the safest place in the whole world. Am Yisroel, my fellow Jews, the time has come. Moshiach is here but he has not yet been revealed. Make an effort to save yourself and your families and prove to Hakadosh Boruch Hu that you are worth saving.

Soon all true Jews will be forced to leave England because of the law that they want to pass forcing all schools to teach things that are absolutely forbidden by the Torah. I am sure many Jews are just waiting and hoping the law won't be passed. However, if it is passed then you must leave England without a question, unless you feel that even if it passes somehow you can get around it. However, you won't be able to avoid it this time. They want to destroy Yiddishkeit! They won't let you do what you want! The true Jew will know that he has no choice but to leave England. But where is he going to go? America the United States is doing the same thing. Europe is dangerous even physically. So where are you going to go? Really there is no place to go only to Eretz Yisroel. Very soon there will be a big change and the State of Israel will be replaced by Eretz Yisroel and the Bais Hamikdosh and Moshiach!

But you have to do Teshuva if you want to be saved. Which means the Jewish community in England, which was once very strong in their Yiddishkeit, for the last years has gone down very much. The outside world has broken the barriers that the generations before had put up to make sure that the community wouldn't be destroyed by intermarriage and the infatuation with the Gashmius. Just like all the Jewish communities of the world, the English Jews have been infiltrated by the worst gadgets like iPhones etc. that have bombarded the world and has caused a tremendous lowering of the level of Yiddishkeit in England and in the world including Medinas Yisroel.

This is something preplanned by the leaders of the world to kill off Yiddishkeit with the best of weapons the iPhones, internet, TV, etc. that

can bring the filth of the world almost straight into the minds of the victims without them even having to go to a play or a concert or a movie etc. The victim can sit in his armchair and roam the world on every subject no matter how horrific and be influenced by all the Schmutz in existence. It is very hard to take out of your mind the images and the information that is mostly decadent once you have seen it, read it, or heard descriptions of the most vile distortions that are against the Torah completely.

Am Yisroel you have to give all these things up and come now to Eretz Yisroel. You will get off the plane in what is called Medinas Yisroel but once there you have to close yourself off as much as possible from what is called the State of Israel and rediscover and live by our eternal Torah. Get rid of your horrific toys that are destroying your mind and your Neshoma and come back to Eretz Yisroel and be part of recreating the promised land as it was supposed to be and have the Zechus and merit to be Zoche to greet Moshiach Tzidkainu and be Makriv the Korbonos in the Bais Hamikdosh.
