

Tomorrow is Erev Shabbos and Erev Pesach. Seder night is before us and most of us are feeling very weary, feeling unable to face the challenges of the last moments of preparation for this most important holiday celebrating Hashem's taking us out of slavery into the world of Yiddishkeit by giving us the Torah and all that it encompasses, by taking out of bondage those true Jewish souls who were created by Hashem from His own being and

who would in the future at Har Sinai accept totally on themselves Hashem as Ruler of all existence the Creator of Everything the Hakol Yachol, forever. And here we are thousands of years later celebrating our freedom from the bonds of the Yetzer Hora and the Egel Hazahav etc., where in fact we are still their slaves. Am Yisroel, I feel very strongly that this Pesach we will again realize that we are moving upwards and away from the twisted influence of the Satan himself, that we are throwing off our chains that tie us to those who go against the Truth of Hashem's Torah!

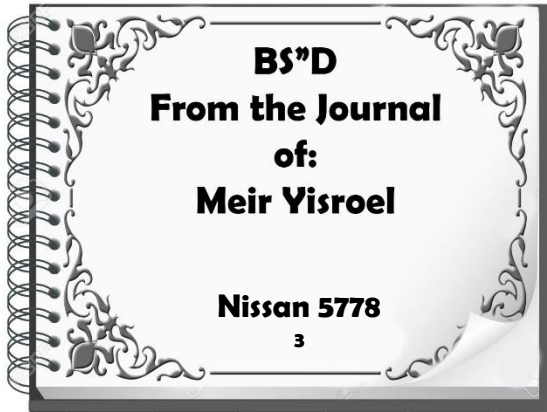

I truly feel that most of the world will soon be destroyed together with most of the population of the world. I know for sure that all our existence as citizens of the planet earth is only a short journey through time and space until we reach eternity and I know that we are going to begin soon the last lap of what is known as the history of the world, planet earth and its inhabitants.

I want you to realize, Am Yisroel, that you are in fact the Chosen Ones of Hakadosh Boruch Hu. You are His choice to be His servants for eternity. Everything was created by Him in this solar system and was only created to help the Jewish people learn to live by the rules and regulations of Hashem's Torah. We do this by going through many different phases of life where we either improve ourselves in the eyes of Hashem, Kivyachol, or we go down to the darkest places and the greatest punishments Chas Vesholom. In the end every true Yid will be saved and will go up to the next stage of Creation.

There are so many people living superficial lives and even consider themselves Frum even though their lives are built around superficial Gashmius and a big lack of Kedusha. But we will survive this also even though right now, most of the world as we know it, both Jew and gentile is steeped in the worst possible Aveiros. However, the true Jews who do Teshuva and stay with their Creator no matter what will survive. It may sound hard what I am saying but to those who know that the only thing that really makes life worth living is to be totally part of Hashem's Derech that leads to eternity. Every true Jew has a longing to be what Hashem wants us to be. Every true Jew is born with a love

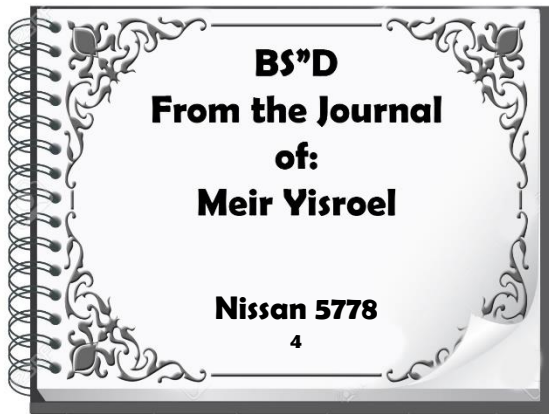

of Hashem in his heart and in his soul, every true Jew wants to leave behind him children that will go in the way of Hashem's Torah and Mitzvos and every true Jew in his heart of hearts and in his soul is waiting to greet Moshiach Tzidkainu.

I hope and I pray that this Pesach will bring us to the doorstep of the Geula Sheleimah and that all our loved ones will be with us. The world has fallen so low, lower than Sedom and Ammorah and Edom and Dor Hamabul and Dor Haflaga all put together but still, we know what is written that Am Yisroel will survive it all and once we great Moshiach then we will be on our way to being one with Hakadosh Boruch Hu, completely.

This week, the week to come is going to be full of surprises and not a little fear. We will have ended the Yom Tov of Pesach and will be moving towards Lag Baomer. Between Motzai Shabbos, right after Yom Tov until after Lag Baomer, life will be very unstable. There will be financial difficulties and wars. Besides that, there will be natural disasters all over the world. People will be living in much fear and hopefully the peoples of the world especially the Jews will realize that we are living in precarious times. All I can say is Am Yisroel do Teshuva in capital letters, I beg you! Time is running out. The only thing that can save us is Teshuva, true Teshuva and to be close to Hashem, meaning that we have to work hard to be close to Hashem.

I have nothing else to say except we should have a Gut Yom Tov and a Gut Shabbos and very soon we should all be Zoche to greet Moshiach Tzidkainu Berachamim Uv'simcha.

It looks like things are getting very serious and they are. Life will not go back to what it was. We are in a state of limbo between the world that we have known for so many thousands of years to a world which is Kulo Tov, where everything is only good. The world that we are in now eventually will be destroyed because it was created only for the Jewish soul to be part of a reality that is nothing else but Hakadosh Boruch Hu. Hakadosh Boruch Hu opened up a little place, a comparatively little place,

in the Infinite and created the world as we know it with the stars and the sun, the moon and everything we have in our solar system. Everything that exists Hashem created directly including the good and the bad, Shelo Neda. Man was created to one day achieve eternity meaning to be an integral part of Hashem's reality and for this He created man, woman and the stars, everything we see in the heavens. He put man on the earth that He created with the flowers the grass and the trees the animals etc., and from the man He created the woman, so the man wouldn't be lonely and He also created the Nochosh (the snake) to put man and woman to the test which they duly failed.

From that moment on man has descended from his most lofty height when Hashem created him to the deep depth of sin that we find ourselves in now. Am Yisroel through Avrohom Ovinu, Yitzchok Ovinu, and Yaakov Ovinu were given a Derech a way to regain those lofty heights that the first man was given. When we received the Torah, we were officially receiving directions straight from Hashem on how to achieve the goal that Hashem created us for. Therefore, many of the non-Jews realizing that the Torah has within it the secret to eternity have adopted many of the things written in it. However, they don't come anywhere near interpreting the Truth of the Torah and the depth of the Torah because they lack the desire to give their lives living by the Torah that was given to Am Yisroel on Har Sinai.

There are non-Jewish converts who are very serious and do become actual Jews. However, in our generation at least most of these Gairim are not true converts. Gairim like Avrohom ben Avrohom have proved themselves without a doubt to be sincere and in many ways are greater than Jews that were born Jews. However, not too many of these converts are so Emesdik.

This week the State of Israel gave a whole day to what they call Yom Hashoah, the day of remembrance of the people who suffered through the horrors of the monsters who ruled the third Reich. They were tortured and murdered in a most sadistic, well planned vicious way, in a way that no other anti-Semitic movement throughout the generations dared to do. But what hurt me the most about the presentations about Yom Hashoah was that very little was spoken about why Hakadosh Boruch Hu allowed this to happen. Many of the survivors continued to be nonbelievers, Hashem Yishmor and others became more

observant and went on to build families, large families in many cases, of Jews loyal to the Torah and Mitzvos that Hashem gave us. But most of the survivors stayed non-Frum and it's a fact that the vast majority of the Yidden in Europe before World War II were Chilonim - were Mechalel Shabbos!

A Jew that stayed loyal to Hakadosh Boruch Hu and His Torah like Harav Elchanan Wassermann, Zatzal, Hashem Yikom Damo, realized that Hashem would not let this continue because if this continued, Chas Vesholom, there would be no reason to have created the world and mankind. He knew that the Holocaust was coming but he didn't let not even one of his children leave Europe. He had a large family and only one did he allow to leave. He knew that probably he and his wife and his children would be killed but still he sent only one son and his wife to America which has always been since its creation in 1776, the greatest center in the world of the Egel Hazahav. He sent this couple to America because they were married fifteen years and had no children. He sent them on a mission to make Baalai Teshuva. He and his family were killed. Not one was left except the one that went to America with his wife and with great Siyata Dishmaya managed to bring thousands of Yidden back to Yiddishkeit. These Yidden in Europe that were mostly Mechalel Shabbos at the end came back to Hashem, according to the Nazis Yemach Shemam Vezichram. These murderers of most of the Yidden that died in the gas chambers were witness to the fact that most of the Yidden died with Shema Yisroel on their lips meaning that they probably did complete Teshuva.

We hear people questioning why? How could Hashem bring into the world such suffering to His chosen people and I tell you it was because He loves them so much. If they would have continued on their path of rapid assimilation with the peoples of the world then the whole world would lose its right to exist because it exists only for the Yidden to do Mitzvos, to live according to the plan that Hashem gave us at Har Sinai and that we promised to fulfill when we all said Na'aseh Venishma. Now more than seventy years after the end of World War II we Jews are again falling down to the depths.

The State of Israel was created. It was created with great Chutzpah. It was created to be the shelter for the Jews of the world against anti-Semitism. It was created supposedly to give every Jew freedom and peace to live and to build a society without the fear of anti-Semitism, to build an army that could defend the Jewish population and to raise families that will continue on and maybe achieve the greatness of the days of Dovid Hamelech, Shlomo Hamelech and the Maccabim etc. However, this was all created by non-believers who created the State of Israel for different reasons. They planned to make it a non-Frum secular state that would destroy religion completely especially the Jewish Religion. They planned to ban, Hashem Yishmor, Hakadosh Boruch Hu and to turn us all into Jewish Goyim non-believers Chas Vesholom!

However, these Chalutzim that built the State of Israel are no more and the ones that are ruling today are fools and are diluting themselves into thinking that the Hakol Yachol will allow them to ruin, to destroy Hashem's palace. They still haven't gotten into their heads that they are a bunch of puny weak people who Hashem Himself created and who Hashem will destroy completely. Why completely? Because they have tried to completely destroy Yiddishkeit and "when necessary" have murdered and imprisoned Tzaddikim without even a tinge of conscience.

Am Yisroel, many of you are Tzaddikim. Many of you have a great love of Am Yisroel, for your people and towards Hakadosh Boruch Hu the Hakol Yachol. The time has come for you to stand up and be counted not give up and not be intimidated. Hold on, Kivyachol, to Hashem and don't let go! Hashem hates Zima, hates the lack of Kedusha and the peoples of the world have dragged Am Yisroel together with them into the depths of immorality that would make Dor Hamabul blush.

However, there is a percentage of Yidden that has not let the society bring them down so low and they are fighting with all their hearts and souls to keep them and their families living in Kedusha. But it's a hard fight especially for the youth and therefore those who manage to see the Truth and pull themselves and their families out of the pit of Avodah Zorah (the Egel Hazahav) and Aveiros of all kinds, manage to hold on tight to the Kisai Hakavod. These people who are real Jewish Neshomas will be saved! Many of these people Jews and Goyim are disappearing in the muck of immorality and atheism, Shelo Neda. Some of them have Yiddishe Neshomas and Hashem will pull them out of the muck and the mire and will clean them off in a process that won't be easy but, in the end, they too will enter the Bais Hamikdosh Hashilishi. There are some Goyim that are also in the right direction and they will be saved. I am not going to describe the ultimate fate of the world as we know it now or of the universe as we know it now but one thing I do know, whoever is against Hakadosh Boruch Hu and His Torah has no Zechus, no right of existence and the ultimate end will be difficult and final for all non-believers, for all the Amalaikim, the Edomim, the Yishmaelim, the Erev Rav etc.(who are considered Jews) .It will be the final end! It will end the history of the world as we know it!

Am Yisroel, if you have a Yiddishe Neshoma, if you can feel another Jew's pain, if you can cry from joy when you dance with the Torah on Simchas Torah and cry from the depths of your heart when you mourn over the Bais Hamikdosh on the ninth of Av (Tisha B'av) then do Teshuva now! Come back totally to Hakadosh Boruch Hu. Rid your homes of the idol called Egel Hazahav and don't be afraid to follow Hakadosh Boruch Hu wherever He leads you because the vast majority of the people of the world including the Erev Rav are on the road to oblivion and Am Yisroel which is a very tiny percentage of the world population today will go upwards towards eternity.
