

Up until now we have had one incident after the other. Sometimes many incidents in one day or in one week, but still many people are in total denial, sound asleep, not willing to accept that the world as we know it is absolutely falling apart.

I feel that this coming week will bring a very big shock to most of the world. I say most of the world because so many people are still so out of what is

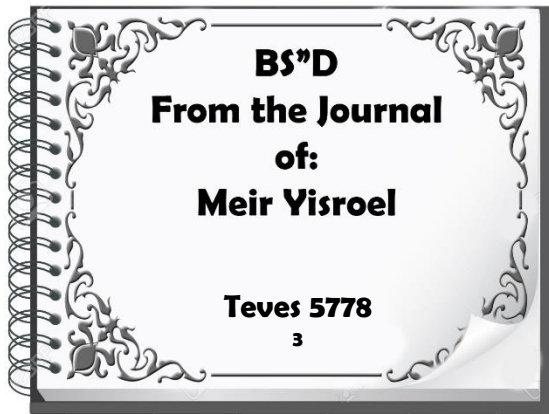

happening that they don't even try to know what drastic changes have happened in the world since 9/11. However this week should bring a great truth to the world making it clear that the world as we know it, planet earth itself is in grave danger. Hopefully, these latest revelations will help many more people to realize that its time, with all their hearts and souls to come back totally to Hashem and His Torah.

I feel that the events of the coming week will mark a turning point that will affect our lives very much if not directly then indirectly. Whatever it will be, it will shake up our complacency and put many people into panic and many into even stronger denial that will cause a frantic search for a way to survive. I only hope and pray that this search among the Yidden will bring them to Hakadosh Boruch Hu.

We are very close to a total change in our every day reality and I beg and I plead, Am Yisroel if you know you are a Jew for sure come back to Hashem completely. If you need guidance to do this go directly to Hashem. He will provide everything for you to survive. He will give you spiritually and physically all the tools to get through this most difficult time and to be Zoche to greet Moshiach Tzidkainu. The only stipulation is that you have to do all of this with your whole heart and soul and not think that you can after these events go back to your old ways because you won't be able to. Only Yidden that with all their hearts and souls want to come back to Hashem and want to do true Teshuva and educate their children in the ways of Hashem and want to accept totally Ol Malchus Shomayim will survive.

It's Coming! The Yom Hagadol Vihanorah. Better be ready! And never forget, there is only one G-D and He is The Hakol Yachol, the Ribbono Shel Olam, our Father our Everything and we Am Yisroel are His total servants, His Avdai Hashem and His Ovdai Hashem.

Remember clearly Ain Od Milvado, Boruch Shem K'vod Malchuso Li'olam Va'ed.

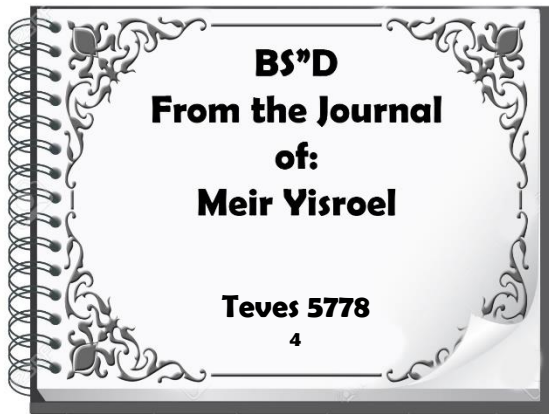

I don't know what to say. I'm without words. I don't know what to say. I feel something very very difficult on the horizon for the world. I feel I want to cry. I want to scream," Am Yisroel open your eyes, open your hearts, understand what is happening." Hakadosh Boruch Hu loves His Am Yisroel and wants to save us without suffering. But you, we, His beloved bride in the desert are fighting against Him. We are ignoring for the most

part His tremendous love for us. We are ignoring that yearning that should be in every heart and soul of every Yid to be joined together with our Father, our King, our Hakol Yachol, Hakadosh Boruch Hu! We were created from Him. We are a part of His Eternal Creation. We are an important part of what is known as the future and Hashem created us, a very important part of what is called Netzach.

Am Yisroel I feel so strongly the time, the most difficult time before the Geula is starting, clearly starting soon. Every human being inhabiting the earth will realize without a doubt that the world as we know it is crumbling into nothing. All of our so-called technological advances will disappear. All of our twisted dreams of the future will vanish. Our dwelling places will crumble. Millions will die. Many places will be consumed by fires, and darkness will cover the earth.

Am Yisroel, Hashem's young bride in the desert that showed Him so much love and loyalty, we are going to go through the desert once more because we had left Hakadosh Boruch Hu and we have been unloyal to Him and His Torah for many generations. And now it is time to come back under the Chupa cleansing ourselves before that from all our Aveiros, from all of our infatuations with the nations of the world and once again under the Chupa return our total loyalty to our Father our King The Creator of The Universe and Beyond. We should know from that moment on whoever is still alive with a Jewish Neshoma will never ever be in anyway not loyal to Hakadosh Boruch Hu, who is our G-D our Creator our Everything.

Ain Od Milvado. Hu Hayah Hu Hoveh Hu Yiyihyeh.

The world was pretty shocked this week with all kinds of things that are happening. Not just war things, but all kinds of strange things. I won't enumerate them because some people cannot understand them and others just don't care. There were many natural disasters this week. For example, the fact that California was hit with torrential rains, rains that attacked the same area as the blazing fires did which burned down huge areas in the Los Angeles region

were many very rich and successful Hollywood people live. These unbelievable rains took the lives of people as well as did the fires but it was so unusual because there were massive mudslides which was a very new and deadly experience for the people of that area.

On the political front many frightening things are happening. It seems that the world is going towards total anarchy because the same people that feel that they are totally controlling the world seem to have lost ground in many ways which is a bit hard to believe. Either some people have woken up and gone against them or its one big act on their part to make people feel that they can succeed to control things in their own way where others have failed. That means that the same illuminati in many instances seems to have lost control of what they planned to do when in reality they want to confuse everything and everybody into thinking that they are no longer a threat. For example, ISIS suddenly came into existence and seemed with the help of expert newspaper and other communications who described them as a threat to the world, even though their achievements were deadly but certainly not any way of the level of destroying the world. Most of the world believes this. Many gruesome and horrific images were shown on internet, television, etc. of the brutal executions of men, women, children and were flashed across the world with captions and articles testifying to the great danger the world was in from these dangerous Arabs.

Anybody with any kind of half intelligence should have realized that this was ridiculous! It was an enormous Hollywood type production in a way that was convincing to simple minds who want simple answers. There are many such examples which I won't go into. However, in the last ten years we have witnessed giant frightening happenings in the world that were totally contrived and could be called the "greatest show on earth" even though they were very deadly.

Now I believe they were trying to confuse people all over the world and work people one against the other and they are being successful in an amazing way. All over the world we see conflicts between countries and even inside of the countries themselves one group against the other. Let's take for example Europe which is known for its inborn anti-Semitism, for its total hatred for anything Semitic. Wonder of wonders countries like Germany that once killed anybody Semitic in any way including Jews, Arabs and gypsies without any conscience, suddenly threw their doors open wide and accepted literally hundreds of thousands of lower class Arabs, in most cases without wives or children with them, into the country and since

then even though they have lowered the amount of migrants coming in, the government has shown much kindness towards these simple Arabs that they have accepted and have closed their eyes to the great amount of crime they have produced in Germany. On the other hand, according to the normal white German elite population anti-Semitism towards the Jews has risen tremendously to the point that fifteen thousand or so Jews that live in Germany as German citizens cannot send their children anymore to German schools not only because the Arabs will attack them but the Germans themselves will attack them viciously. These secular Jews are left with a choice of either sending their children to secular Jewish schools in places like England or Israel or to sending them to religious Jewish schools in Germany.

Let's go over now to Israel where the New World Order or the illuminati have put the state of Israel's political situation into near chaos! They have succeeded in turning one Jew against another and of course Arabs against Arabs and Jews and Arabs against each other. You have scandals of every type popping up into clear view with all the gory and embarrassing details being said out clearly on radio, television, internet etc.

It's a world that is getting poorer and poorer in their ability to satisfy their Gashmiusdik needs that the governments of the world have gotten us used to.

I warn you all that there is going to be a tremendous financial crash together with a world war that started around seven years ago right here in the Middle East. I also warn you that what we have said about Nibiru or Hashavit as the mini solar system is called in the Zohar is coming steadily towards the earth. Probably it won't hit the earth, Be'ezras Hashem, but the damage will be what is clearly written in the Nevuas that two thirds of the world will be destroyed but Eretz Yisroel will not be destroyed.

Am Yisroel, don't you see? Don't you understand? What I have said above is only a little tiny bit of what is happening in this world. Am Yisroel go back to our Torah even if you're Frum. I am also speaking to the Frum. Detach yourselves more and more from the materialistic world and attach yourself more and more to your Holy Torah. Reach out, so-to-speak, to Hakadosh Boruch Hu. Hold on so to speak, to Him with all your might and then turn to your fellow Jews and give them your hand to hold. Try to save them by trying to help them pull themselves out of the quicksand that they are caught in.

Am Yisroel, I beg you, shut yourselves off from the lies of the world, from the Sheker of the Goyim who live only to fulfill their physical desires and come back in mind and soul and body to our Hakol Yachol, to The Creator of The World and everything in it and beyond. The creator of Nibiru / Hashavit and all the stars and everything that we can see and that we can't see, all the dimensions that exist in Creation. Come back now before it's too late!
